Goal The goal of the final project is to create a personal or portfolio website that can be used to showcase who you are, or something that you've achieved!

Start by writing out the basic HTML structure. Then be sure to include all of the following:

HTML
- ❏ A website title
- ❏ At least one image
- ❏ A few paragraphs about you or your accomplishment
- ❏ Create at least one link to another website
- ❏ At least one list, table, OR form
- ❏ Create at least 2 HTML comments

CSS
- ❏ Set the background color
- ❏ Change the color of some text
- ❏ Change the size of your most important text
- ❏ Create a border around your photo
- ❏ Make your title (or some important text) all capital letters
- ❏ Change the font to Helvetica
- ❏ Create at least 2 CSS comments
